EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bryan H. Davidson on June 22, 2005.

The application has been amended as follows:

Claim 1, line 11, after "which", the phrase - - is sandwiched between and - - has been inserted.

2. The following is an examiner's statement of reasons for allowance:

A review of applicants' arguments in amendment filed on March 30, 2005 and a review of the instant amended claims has convinced the examiner that the claims are allowable over the applied prior art of record. The prior art fails to teach or suggest that the plastic bonded permanent magnet comprises a filled plastic component, a basic body and an intermediary component of elastic material which is sandwiched or positioned coaxially between between the axial faces of the plastic component and the basic body, that the plastic component includes plural recess formed in its axial face which receives plural projections extending outwardly from the intermediary component so as to connect by means of friction and/or positive connection, and that the plastic body comprises a

plastic matrix and permanent magnetic particles as filler is embedded within the matrix in an amount sufficient to render the plastic component permanently magnetic. Also, no evidentiary support could be provided to support the position that the instant claimed invention would have been obvious to one having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nasser Ahmad whose telephone number is 571-272-1487. The examiner can normally be reached on 7:30 AM to 5:00 PM, and on alternate Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
